Dwarf Army Special Rules

Alignment: Good

Grizzled Veterans

All units in this list have the *Headstrong* special rule, unless specified otherwise.

Dwarven Throwing Mastiffs

The Dwarfs train a breed of war-dog that is infamous for being even more vicious and hard-headed than its creators.

Mark a unit that has been equipped with throwing mastiffs with one or more such model. The unit has a ranged attack with a range of 12" that can be used only once per game (remove the mastiff markers once the weapon is used up).

When you release the hounds, roll 5 dice to hit, regardless of the firer's Attacks. Dogs

always hit on 4+ regardless of modifiers. Then, for each point of damage caused, roll to hit and to damage again, as the surviving dogs savage the unfortunate opponents. Repeat this process again and again until you fail to score any damage, at which point even the toughest of the dogs have been put down or have run off to bury some of the enemies' limbs.

Against units with the *Shambling* special rule, you can re-roll any dice that fail to damage... the mastiffs are that keen.
