

# Airbase

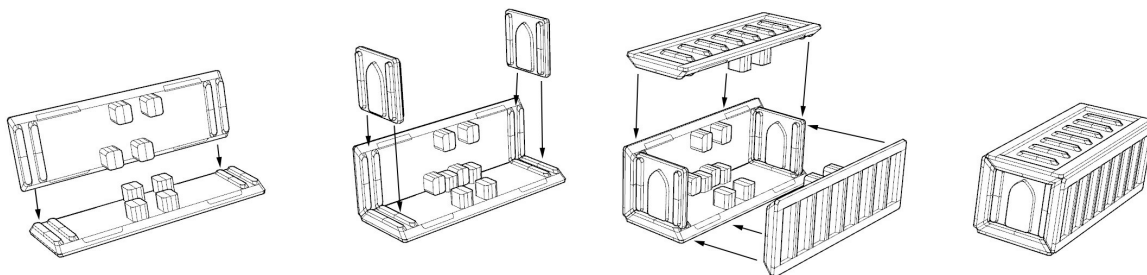

## Landing Pad

## Anti Aircraft Emplacement

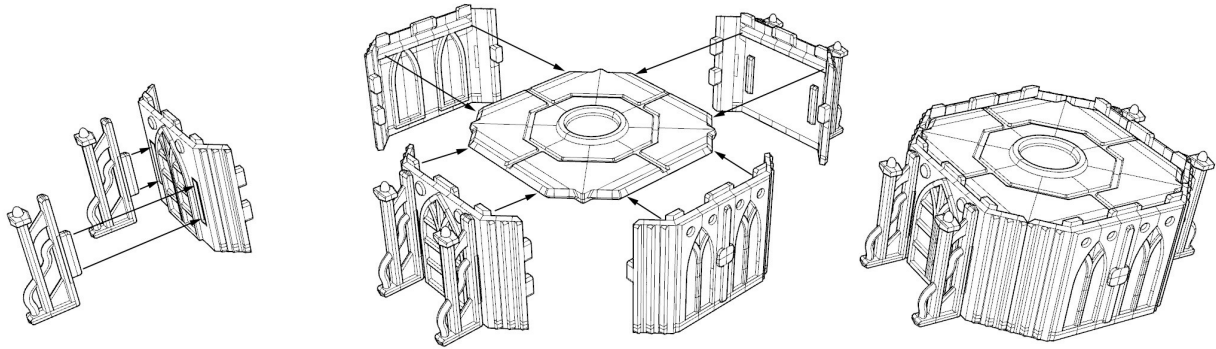

## Cargo Crate

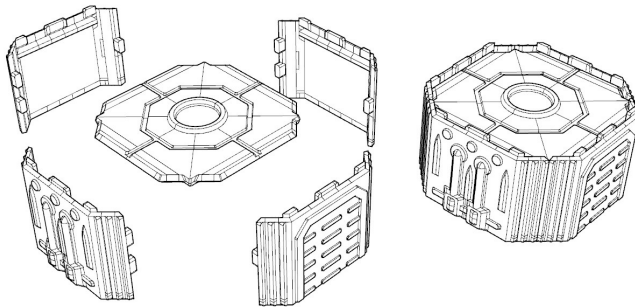

## Gothic Towers

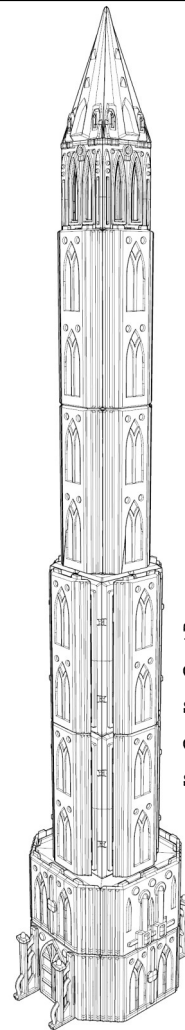

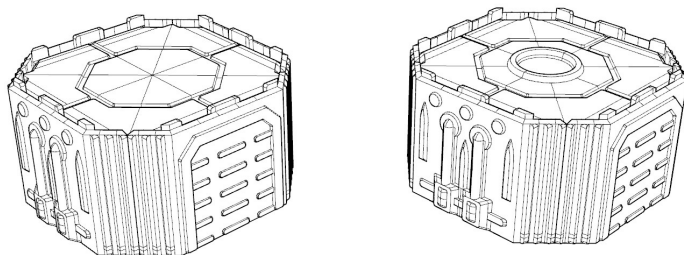

Tower Base

Tower Base

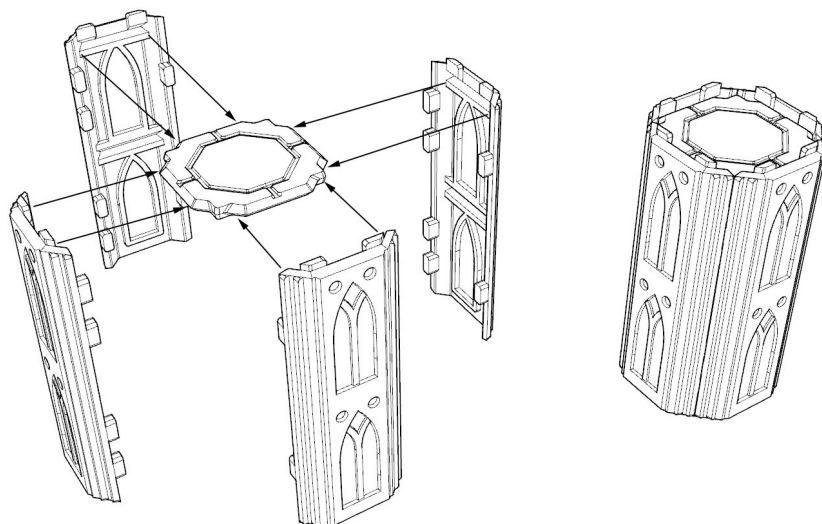

Tower Bases can be constructed either blank, or with the optional modular socket.

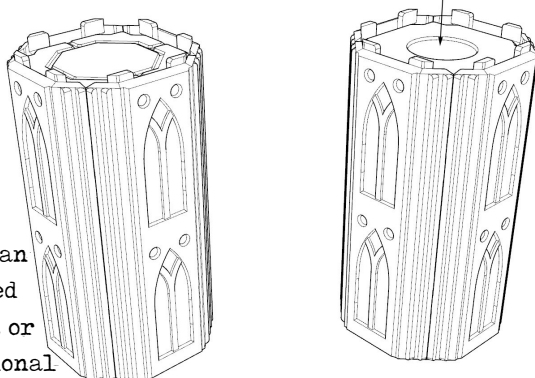

Tower parts can be stacked, to create tall structures.

## Tower

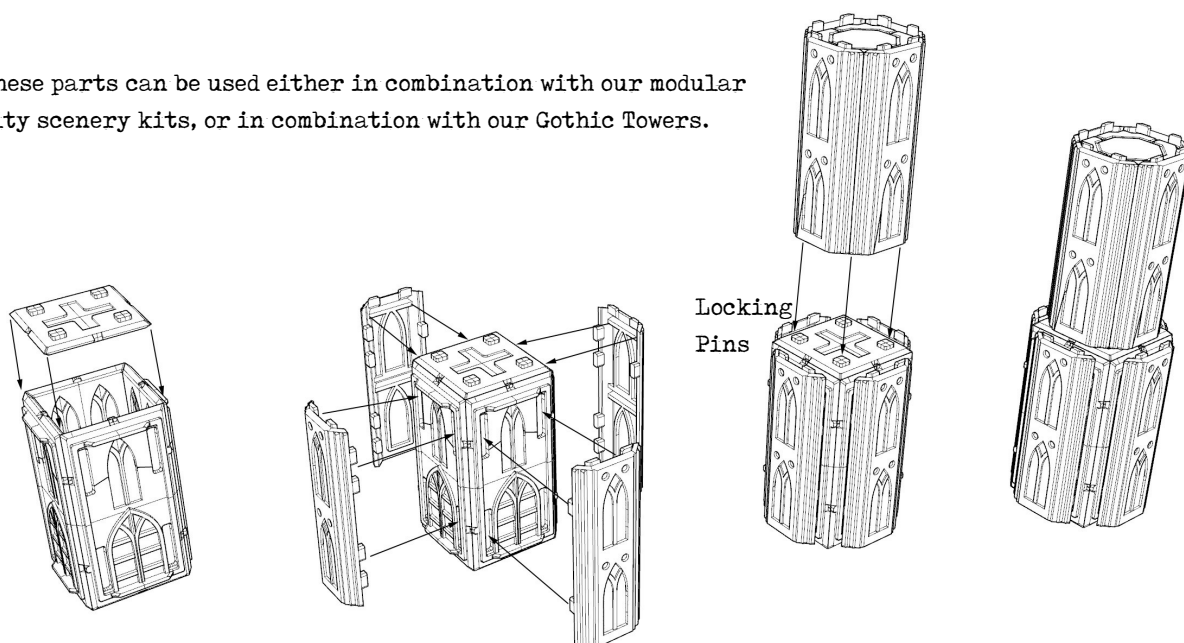

Optional Modular Socket

Tower Bases can be constructed either blank, or with the optional modular socket.

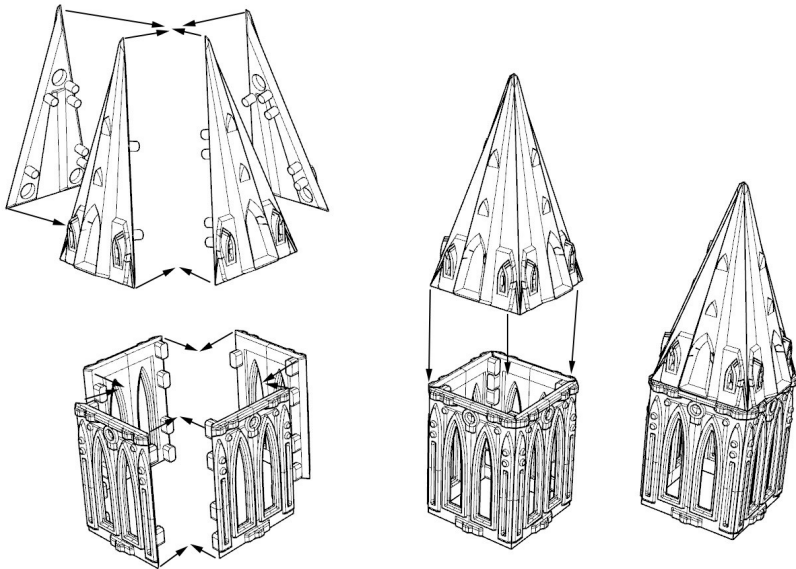

## Modular Tower Parts.

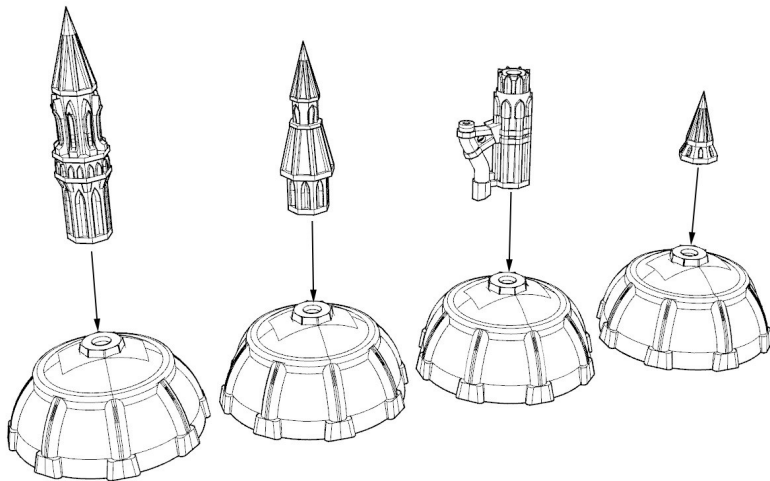

These parts can be used either in combination with our modular city scenery kits, or in combination with our Gothic Towers.

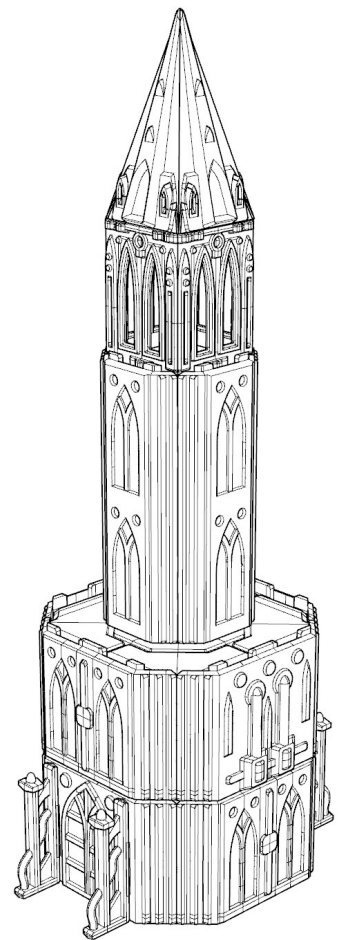

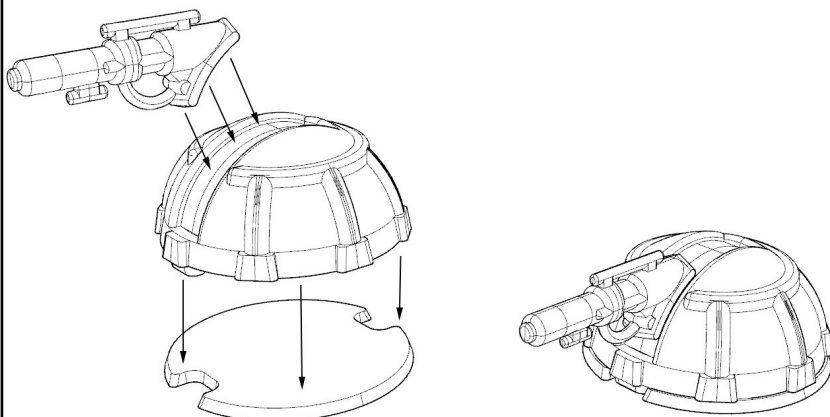

### Tower Spire

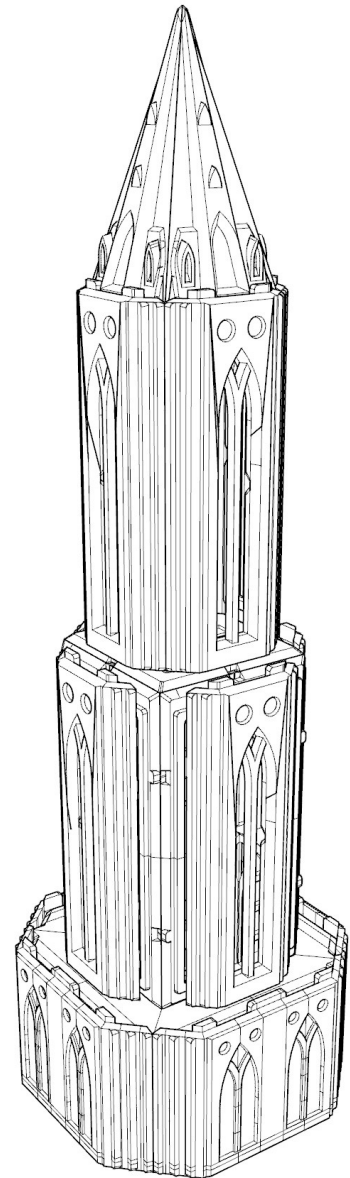

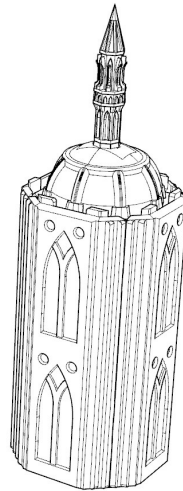

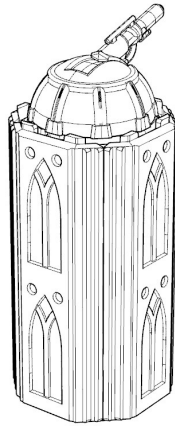

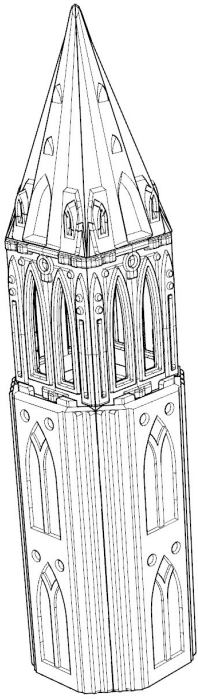

### Dome Cap Details

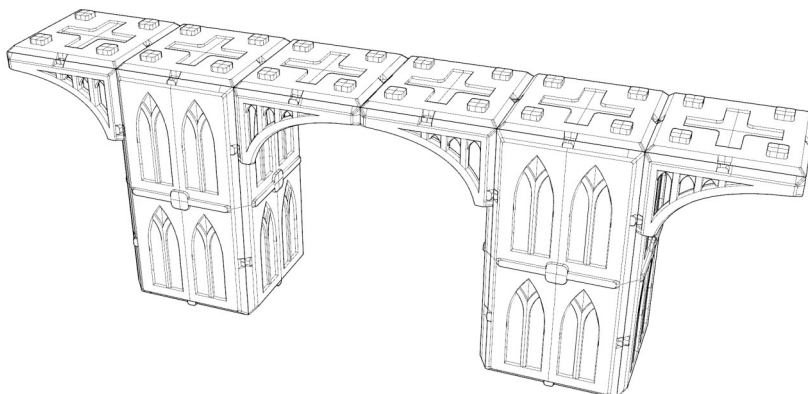

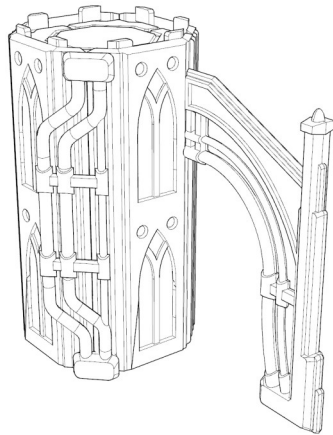

### Beam Laser Turret

Towers can be capped off with various different choices of spire, dome, or weapons that use the modular socket.

The Towers set comes with industrial pipeworks and industrial flying buttresses, which can be used to add extra character to your buildings.

The structure support parts can be used in combination with other parts, to form bridges, balconies, and other overhanging building elements.
